

Cheer Pom Poms

Cheer Pom Poms are a great craft activity to inspire creativity, self-expression and to develop both gross and fine motor skills. You can make Cheer Pom Poms in many different ways using coloured paper, brown paper bags, pieces of used ribbon, material off cuts.

Resources Required:

Coloured Paper, Paper Bag or Pieces of Material
Sticky Tape
Scissors

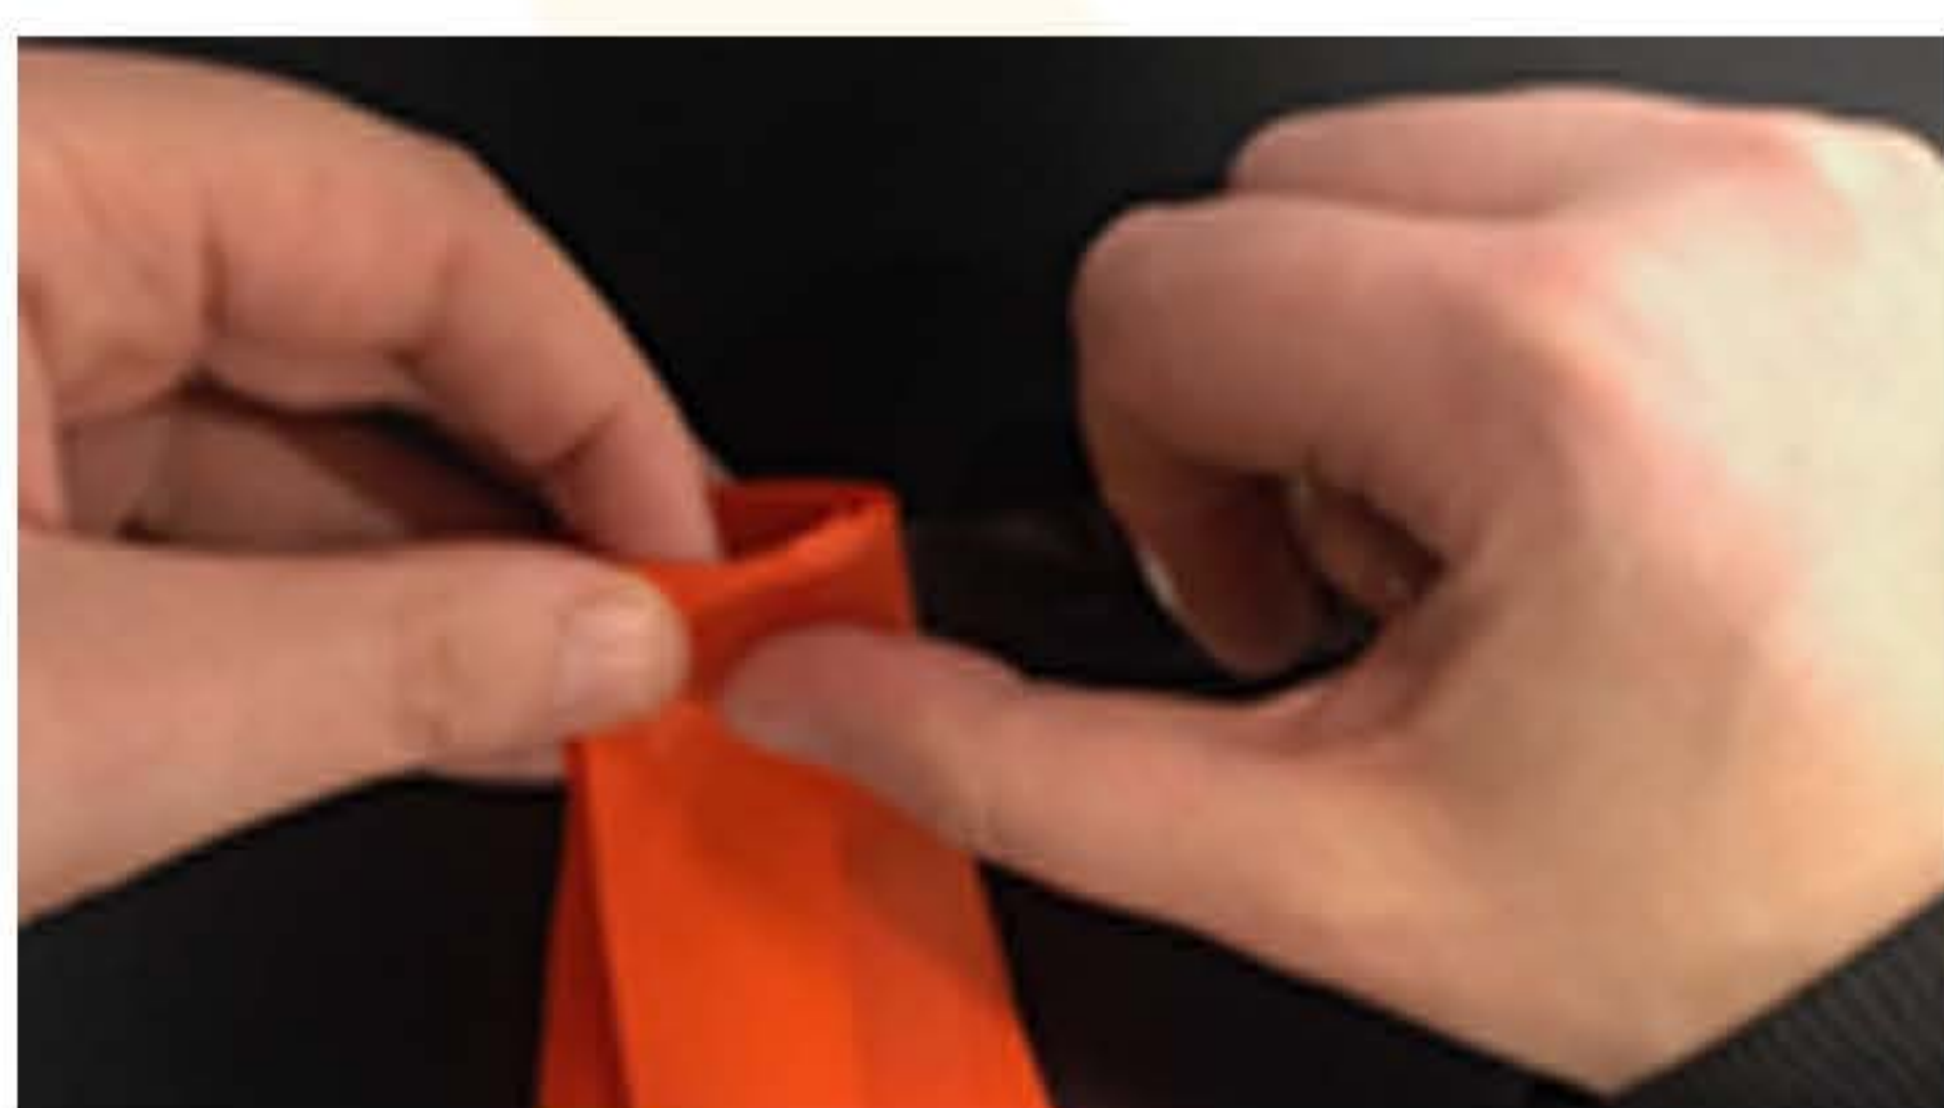

Instructions:

Start with a piece of paper or material and cut upwards creating slits, all the way up your paper making sure you leave a strip at the top of the paper without cutting all the way through (you may need an adult to help you with this part)

Now roll and fold the piece of paper around and around, all the way rolling it up until you reach the other end of the paper.

Now tape the top of the Cheer Pom Pom; you may need help from mum, dad or a friend. Ensure you tape around the other side of the top to make sure it is nice and secure.

Congratulations you have made a Cheer Pom Pom. You may like to add some decoration to it using different materials you have. We stuck a recycled piece of fabric on the end to use as our handle.
